TRANSCRIPTION #113- LETTER FROM AL-MARRI DATED 7-20-06

Dear Andy,

Please be upon who follow the guidance.

This is my note on Stephanie ① declaration, following her numbering...

8 - note the date by my signature (10-22-04) that is 16 months after my arrival. However they have one was signed by me the first or second day of my arrival, but they removed "over and above the treatment provided for by the geneva conv." in #4 of the SHU rules (p9 of 9) They change it to "In Accordance with" after ICRC visit. Also that shows that those are the only written rules. The daily rules changes from shit to another (4 shift, not 3 as you stated previously). So, I do not know which rule to follow.

9 - That is not true. Before the present protest, I was in compliance for about 4 or 5 months, but nothing more was given to me b/c of my case is in Court.

12 - #h - please show ridiculous they are by counting "performing physical exercise within his cell" as a privilege. Walking or pushups or jum jack inside my cell is a privilege.

13 - Throwing urine out of my cell b/c the water is being cut and if I use the toilet, will stay there for hours up to 14 hrs sometimes so, I through (*throw*) out of my cell to prevent the smell. Defecating is the same as above, if I do it in the toilet when the water is cut, it will stay there for hrs, but if I do it on the food tray and through (*throw*) it outside my cell, they clean it immediately (*immediately*). Resisting the staff b/c every shift has his own rules & are different from the other three shift so, I do not know which are the Brig rule & which are the guards own personel (*personal*) rule.

14 - no consistant (*consistent*) on the time of suspension, b/c there are not rule govern that "it is as she see fit" that is the only rule apply here (you have her answer in a chit)

b - the clock is essential for me to know the time for the conical 5 day prayers, including the morning at 5:00 AM and use it to wake me up.

c - that should be all day/night, no access to day room at all.

d - foam mattress is not a comfort item b/c they do not provide this comfort item to their own prisoner. It was issued to me instead of Brig-issued mattress (which I only seen since after about 2 ½ years) by the medical doctor b/c of the pain & tingling when going to sleep. The proof that the foam mattress is not a comfort or privilege as they say is that they do not issue it to the regular prisoner. And the sizeable desk which has a service of 40x16 inches (Andy the answer is no, I will not switch desks w/you, just in case you are tricked by the word "sizeable").

15 - This is the measurment (*measurement*) of my cell

① Bed

② Toilet

③ sink

④ desk

⑤ door

⑥ window

⑦ & ⑧ available

area to walk = 51 ft

minus #4 (40x16 = 64 inches = 5ft) = 46 ft to walk and workout.

Also, the window is opaque window covering prevent from seeing outside to see the sun or sky even though, the only thing I will see if allowed is the recreation area where I go to outside rec. so, it not something I have not seen before many times.

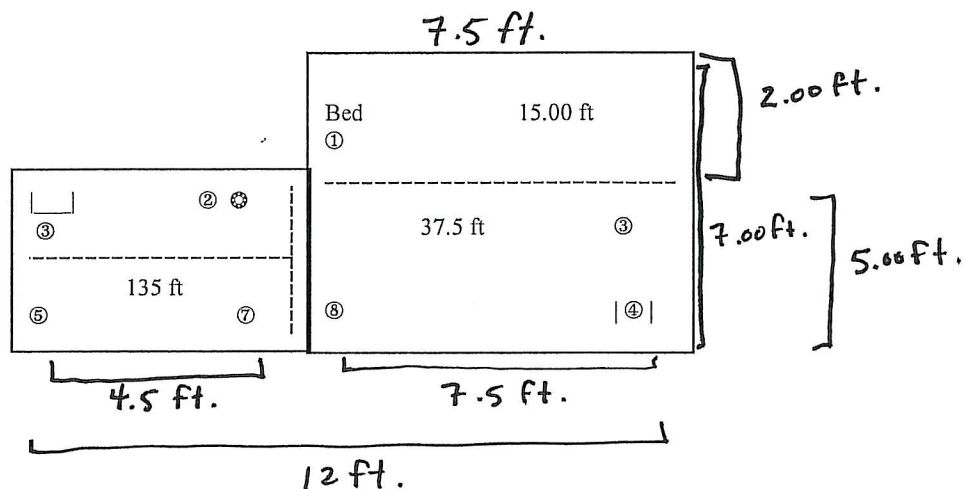

16 - the table & chairs are metal

17 - The bed was given to me after 2 ½ years

The chair “ ” 3 years

The mirror “ ” after 2 ½ years

She is saying when I am non-compliant, the desk is removed. It is in one of her letters to me.

18 - The foam mattress is issued to me based on the recommendation of the doctor, it is not a standard issue to prisoner so, it should not be suspended b/c it is like a medicine to me. Comfort foam support mattress, why would they provide me with a comfort item that they do not provide to their own prisoner "she must be having the hots for me"

19 - The fan is an industrial fan not a house fan, however lately they did provide me w/a household fan when I asked, but that is only 3 or 4 weeks ago.

20 - This only true 3 or 4 weeks ago b/c I covered the light w/papers and for safety concern they told me remove it and we will turn the light on & off upon your request.

23 - I was only told the direction to Mecca after 2 years. She admitting (*admitting*) that to know the time & direction of prayer is being suspended when I am deemed non-compliant. So, my practise (*practice*) of my religion is a privilege.

24 - I do not have Saheeh Muslim

25 - To show that she is lying, the razor is used to shave my pubic hair unless she is saying that the barber is doing that when I am in non-compliant, otherwise she is lying. The razor was provided to me after 2 ½ years & never been suspended.

28 - Neurologist saw me a month ago after 3 ½ years of complaining.

29 - only once a day for the last 8 months

30 - I am being examined by (8 weeks doctors) the corpsman. They are not licened
(*licensed*) medicaly (*medically*) to examine patients. So, I refused to be examined by them.

33 - the unmonitored telephone calls (yeh (*yeah*), they also allow me to shopping
(*shopping*) by myself in the weekend so far only in Miami, Florida, hopefully (*hopefully*) next I can
go to London)

34 - Moral visit my a ___. All or almost all of my conversation is about my confinement
condition problems.

36 - home improvement (she means cell improvement, b/c that is my home now)

41 - That is not true & you have older letters that say no rec at all.

42 - the afternoon is at 2:00 to 4:00, the hottest time of the day. Some rec.

44 - Even that is not allowed any more.

45 - She admit that the day room was given to me from Sep. 05, that is after 27 months
(2 yrs 03 months) not as Jenkins said in his letter # 5000 Ser No26/0055 on 18 May 05.

46 - The light part is only 3 or 4 weeks ago (see #20)

47 - The censorship is about 50-75% of the paper. One time only the obituary

48 - Don't you think or see that she is repeating a lot of things to make it look many things, they are the same things but mentioned in 3 or 4 different places.

Finally, even her signiture (*signature*) is different, compare it to her letter to Jon about the phone call being monitored.

I hope that would help.

Yours,

Ali
